DURGESH SONAR

B.Tech CSE (AI & ML) Student | Aspiring Business Analyst | IoT & Technology Enthusiast
Email: durgeshsonar905@gmail.com | Contact: +91 9112410072 | India

PROFILE

Motivated B.Tech Computer Science & Engineering (AI & ML) student with hands-on exposure to Python, C/C++, IoT and ESP8266-based projects, along with Business Analytics learning through MyCaptain. Demonstrated participation, willingness to learn, unique problem-solving approaches, teamwork and leadership through academic and project activities. Also bring 6 months of practical work experience at Blinkit as a Picker-Packer.

EDUCATION

B.Tech — Computer Science & Engineering (Artificial Intelligence & Machine Learning)

Sandip University, Nashik

WORK EXPERIENCE

Blinkit — Picker-Packer | 6 Months

- Picked and packed customer orders accurately and efficiently in a fast-paced environment.
- Handled products and order-related tasks while maintaining accuracy and timely processing.
- Worked collaboratively with team members to support smooth day-to-day operations.
- Developed practical skills in responsibility, time management, teamwork and workplace discipline.

TECHNICAL SKILLS

Programming	C, C++, Python
Development	VS Code, MSYS2
IoT / Hardware	ESP8266, sensors, LEDs, IoT-based monitoring and automation
Business / Analytics	Business Analytics fundamentals, project/activity-based learning

PROJECTS

Smart Plant Monitoring System using IoT

- Developed an IoT-based plant monitoring concept using ESP8266 and sensor-based data collection to monitor plant/environment conditions and support smarter plant care.

IoT Smart Lighting & Distance Alert System

- Built an ESP8266-based system using an ultrasonic sensor, LDR and LED/RGB indication for distance-based alerts and smart lighting behavior.

CERTIFICATIONS & RECOGNITION

MyCaptain — Business Analytics Course | January 2026

Appreciation letter from MyCaptain mentor Adeeba Kadri recognizing Durgesh Sonar's participation, willingness to learn, skill development, unique approach to assigned projects and adherence to guidelines.

MyCaptain Business Analytics Certificate — Certification credential.

LEADERSHIP & SOFT SKILLS

- Leadership and team coordination
- Teamwork and collaboration
- Problem-solving and analytical thinking
- Communication and active participation
- Time management and responsibility
- Quick learning and willingness to improve

- Creative / unique approach to projects and activities

ADDITIONAL EXPERIENCE

Academic project coordination and hands-on technical activities involving IoT, programming and practical problem solving.

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
